

AGALIA LUXURY SUITES

TZAMARIA, IOS, GREECE

Trend-setting style in Tzamaria, on Ios island's west coast

Blues and greens make up the palette for Agalia Luxury Suites, drawing on the turquoise seas and rolling hills that wrap around this island retreat. Its tranquil setting means relaxation is top of the bill. Make for one of the lounge areas or decks dotted around the grounds and you'll find your own place in the sun.

Inside, arches and whitewashed walls here and there hint at traditional Cycladic style. But hip lighting and eye-catching artwork give Agalia a contemporary edge. Each of the 14 suites continues this trend. Think luxury bathrooms made from local marble alongside beds that seem suspended above the ground. Back outside, there's an inviting pool overlooking the ocean, surrounded by sun loungers and palm trees. At dusk, it becomes the spot to get a cocktail, before dinner in the open-air hotel restaurant.

To experience Ios café culture, wander into the main town – known in Greek as Chora. After the sun goes down, the bars here come to life. Or, if a day on the beach appeals, you're right on the coast. Plus the hotel can also arrange excursions further afield to popular bays, such as Mylopotas. To zoom in on Agalia's ocean views book a boat trip, and swap dry land for open seas.
